REUNION TIME… *WAIT, WHAT??!!*

That’s right, Class of ’89! **Our 25th year reunion is coming up in May!**

Think back to commencement morning … 25 years ago… when we were all fresh-faced (or not) … full of gusto and expectations … walking across the Greek Theater stage in our caps and gowns.

Life was brimming with possibilities back then. The world was our oyster. We were taking another big step into adulthood. We were giddy over the uncertainty of it all -- and yet we weren’t even “checking in” or Tweeting out or posting selfies!

Well, 25 years later, we’ve realized many possibilities in our lives, taken on challenges we never imagined in 1989 as we each journeyed down our separate paths into the 21st Century. This May, it’s time to return “home,” back to that familiar campus and those beautiful memories. It will be a great occasion to catch up with classmates, and we want as many Class of 89ers to attend as possible.

So what’s the plan, you ask? Well, here is a little preview of our reunion whirlwind:

**Friday, May 16, 2014**
8:00 p.m. Warm-Up Event at the home of Greg and Lori Horter

**Saturday, May 17, 2014**
10:30 – 12 p.m. Och Tamale! Welcome Home
12:00 – 2 p.m. Gazolly Gazump Garden Party and Picnic on the Green
2:30 – 4 p.m. “R” House Faculty Showcase
4:00 – 6 p.m. Wang Tang Watering Hole
6:00 p.m. Reunion Dinner
8:00 – 11 p.m. Joozy Woozy Late Night Lounge

If you’ve been back to the UofR for a previous reunion, you know how exciting it can be to meet with friends you’ve lost contact with over the years. With a quarter-century behind us, there’s a wealth of career moves, family news, successes and life experiences for us to share with our not-too-old friends and classmates. **So let’s do it!**

Mark your calendars now, call your friends, make your reunion weekend plans, and join the Class of ‘89 reunion conversation at www.facebook.com/groups/498638090197452. Let’s make May 16th and 17th a great weekend that brings us together and honors our memories!

Sincerely,

Katie Ponder Fowler, *Event Chair*
